

Raise **RWF 5M–50M** against your revenue. No collateral, no equity.

Rozine is a marketplace, not a lender. Your business is underwritten on the cash it actually earns — verified from your bank and Mobile Money statements and co-signed by an ICPAR-accredited Audit Partner — then listed as a note that investors fund. You repay in fixed monthly instalments and keep full ownership.

✓ Registered with RDB, valid TIN

✓ Minimum RWF 15M revenue a year

✓ Clear profit after costs

RWF 5M – 50M

WHAT YOU CAN BORROW

3, 6, 9 or 12

MONTHS, REPAYD MONTHLY

0% equity

IT IS A LOAN, NOT A SHARE

WHY BUSINESSES USE ROZINE

Cash flow, not collateral. You are underwritten on verified revenue, so no asset is pledged and no share is given up.

The full cost, before you accept. Amount, term, monthly instalment and total repayment on one screen — nothing added later.

An amount you can carry. The loan is sized so the monthly instalment stays at least 25% below your monthly profit.

Every repayment is a credit record. Repay on time and your rating rises, so the next note is larger and cheaper.

HOW IT WORKS

01

Verify your business

Confirm your RDB registration and upload your bank and MoMo statements.

02

An Audit Partner co-signs

An ICPAR-accredited CPA verifies your figures on site and signs them off.

03

Your note is funded

Investors buy into the note; the capital is released to your account.

04

Repay and report monthly

Fixed instalments, plus a short verified update to your investors.

THE NUMBERS ON YOUR NOTE, EXPLAINED

NUMBER	WHAT IT MEANS FOR YOU	HOW IT IS WORKED OUT
Loan amount	What you can raise on this note, between RWF 5M and RWF 50M.	Sized on monthly profit at 1.25× cover, capped at 35% of verified annual revenue.
Rating 0–5	How investors read your business. 4.0+ is Strong, 3.0+ Stable. A higher rating costs you less.	Years trading, sector, verified margin and repayment history, scored out of 5.
Cover (DSCR)	Your safety margin. 1.25× means you earn 25% more than the instalment each month.	Monthly profit ÷ monthly instalment. No note is issued below 1.25×.
Cost of the loan	What you pay on top, all in: 10–15% of the amount over the whole term — not per year.	10.5% floor, plus a premium for a weaker rating or a longer term. Capped at 15%.

YOUR OBLIGATIONS AND YOUR PRIVACY

A monthly report

Each month you submit statements to your Audit Partner, who verifies and co-signs.

Fixed instalments

The same amount every month until the note is repaid in full. Late payment is reported.

Investors see a rating

They see your rating, sector, location and term — not your raw revenue or bank details.

Encrypted end to end

Bank-grade encryption on your statements, your details and every transaction record.

A loan must be repaid. The final amount, rate and term are set once an Audit Partner has verified your statements, and remain subject to approval. Rozine does not lend its own money and does not guarantee that a listed note will be funded.

Get verified, get listed, get funded.

Verification takes days, not months — and costs you nothing to start.
